2246 - Master's Degree in International and European Studies

- Students should apply acquired knowledge to solve problems in unfamiliar contexts within their field of study, including multidisciplinary scenarios.
- Students should be able to integrate knowledge and address the complexity of making informed judgments based on incomplete or limited information, including reflections on the social and ethical responsibilities associated with the application of their knowledge and judgments.
- Students should communicate conclusions and underlying knowledge clearly and unambiguously to both specialized and non-specialized audiences.
- Students should possess and understand foundational knowledge that enables original thinking and research in the field.
- Students have the ability to discover and select both information and the appropriate sources thereof pertinent to the resolution of international and European problems/issues that present a certain degree of difficulty.
- Students have an in-depth understanding of how to identify, acquire, manage and analyze texts and/or documents both international and European in nature.
- Students are able to work effectively in a team in pursuit of the resolution of complex international and European problems.
- Students demonstrate an advanced capacity to master international judicial/political language; especially that related to Community matters.
- Students participate in debates that address European/international problems, are able to direct and coordinate them, summarize them and extract the important conclusions accepted by the majority.
- Students utilize diverse communication techniques ? oral, written, presentations, panels, etc. ? to impart their knowledge, proposals and positions.
- Students are able to project their own knowledge on specific problems and, in so doing, distill the most significant arguments and conclusions for their resolution.
- Students are capable of categorizing the principal means ? both political and judicial ? of resolving international controversies and analyzing their application in practice in order to draw conclusions about their utilization and results; appraising and criticizing the concept of peacekeeping and the operations mounted with this end, especially by the United Nations.
