SUMMARY

The Master's Thesis consists of carrying out, individually, an original experimental or theoretical work of a specific issue related to any of the subjects studied during the master's degree, at the facilities of the University of Valencia, research centers, or in centers with which there is collaboration agreement.

PREVIOUS KNOWLEDGE**Relationship to other subjects of the same degree**

There are no specified enrollment restrictions with other subjects of the curriculum.

Other requirements

There are not previous requirements.

2220 - Master's Degree in Functional Recovery in Physiotherapy

- Students should apply acquired knowledge to solve problems in unfamiliar contexts within their field of study, including multidisciplinary scenarios.
- Students should be able to integrate knowledge and address the complexity of making informed judgments based on incomplete or limited information, including reflections on the social and ethical responsibilities associated with the application of their knowledge and judgments.
- Students should communicate conclusions and underlying knowledge clearly and unambiguously to both specialized and non-specialized audiences.
- Students should demonstrate self-directed learning skills for continued academic growth.
- Students should possess and understand foundational knowledge that enables original thinking and research in the field.
- Adquirir la metodología científica suficiente para la elaboración de proyectos de investigación en el campo de la recuperación funcional.
- Planificar y ejecutar un diseño de trabajo de investigación, referente a alguna casuística relacionada con la Recuperación Funcional.
- Presentar y defender un diseño de trabajo de investigación, referente a alguna casuística relacionada con la recuperación funcional.

Have the capacity to prepare and defend before a court, an individual and original work at the end of the degree, on some aspect of research in the field of functional recovery of the patient.

DESCRIPTION OF CONTENTS

1. Tutoring students for development, public presentation and defense of a research project that integrates the contents of the subjects studied in the master.

WORKLOAD

| ACTIVITY | Hours | % To be attended |
|--|---------------|------------------|
| Graduation project | | 100 |
| *Realización del Trabajo Fin de Máster | 175,00 | 0 |
| Seguimiento i tutorización del Trabajo Fin de Máster | 20,00 | 0 |
| Presentación y defensa del Trabajo Fin de Máster | 5,00 | 0 |
| TOTAL | 200,00 | |

TEACHING METHODOLOGY

Tutorials should serve as a means to coordinate students on individual tasks during the process of elaboration of TFM.

EVALUATION

| System of evaluation | Percentage of qualifying |
|---|--------------------------|
| Individual work | 70% |
| Exhibition and public defense of the work | 30% |

Total 100%

No work will be accepted that has not been completely prepared by the student or that does not pass the plagiarism control, at criteria of the CCA.

It will be necessary a score of 5 over 10 in each part to pass the subject
