RESUM

This course is taught at Leuphana University at Luneburg during the second semester at the first academic year.

This seminar is a rigorous reading seminar. It will provide the students with the scientific underpinnings of the areas of Human Resource Management and Organizational Behavior. It focuses on creating and improving the understanding of how science is developing in these areas and substantial contributions are made. By reading research articles (e.g., foundational articles, intervention studies, theory based studies, newest studies in this area) students will learn how to discuss and analyze the scientific contributions, what could have done better (theoretical and methodological perspective). During the course students will elaborate and develop an own study design in a research proposal. Each student proposal will be reviewed by other students.

CONEIXEMENTS PREVIS

**Relació amb altres assignatures de la mateixa titulació**

No heu especificat les restriccions de matrícula amb altres assignatures del pla d'estudis.

Altres tipus de requisits

Sense requisits prèvis.

Students will learn how to evaluate a scientific research report and how to potentially improve these studies. Students will gain knowledge in study designs and substantial contributions to the OB and HR literature. Students will be taught how to create own study designs, write research proposals, and write reviews.

Students will improve their social competencies by critically reviewing other students' research proposals without being offensive. Students will learn social competencies in face-to-face interactions and in written correspondence. Students will also be provided with self- and time-management skills in order to handle significant workload.
