- Know the object of study of physical activity and sport.
- Gain basic scientific training applied to physical activity and sport in their diverse forms.
- Understand and use the scientific literature in the field of physical activity and sport in English and in other languages with significant presence in science.
- Be able to apply information and communication technologies (ICTs) in the field of physical activity and sport.
- Develop skills to adapt to new situations and to solve problems, and for independent learning.
- Design, develop, present and publicly defend own reports related to the professional profile.
- Develop habits of professional excellence and quality.
- Develop capacities to act under the ethical principles required for proper professional practice.

## LEARNING OUTCOMES

Will be setting the course in terms of competences.

## DESCRIPTION OF CONTENTS

### 1. TFG

The allocation of the TFG is linked to the field in which they have developed internships. The theme of the TFG will be decided after the award of the practice site, maintaining a relationship with these prior agreement between students and tutors of the respective FCAFÉ.

The content of each TFG must correspond to the area of action is to develop the Placement, ie: a) Physical Activity and Health; b) sports training; c) teaching physical education; and d) sports management). The work can be adjusted to one of the following types:

- Works of literature review and research related to the area of action developed internships.
- Works of professional nature or relating to the area of action developed internships ..
- Experimental or theoretical work related to the area of action developed internships ..
- Other work not included in the categories above, prèviament agreed with the tutor of TFG

Tutors inform the committee TFG and practices, and in the terms that establish the topics that students develop

## WORKLOAD

ACTIVITY	Hours	% To be attended
Graduation project		100
Development of a final project	150,00	0
<b>TOTAL</b>	<b>150,00</b>	

## TEACHING METHODOLOGY

The TFG should always be supervised by an academic tutor of FCAFE. This tutor will coincide with the tutor of academic practices and is responsible for explaining to students the characteristics of the TFG, to guide them in their development, to ensure the fulfillment of the objectives and to make a report of the TFG who has supervised.

## EVALUATION

In each academic year, the student has two exam sessions that the center will make public, together with the deadlines for submitting the evaluation request. This application will be submitted through the UV's electronic via (<http://entreu.uv.es>), indicating the name of the academic tutor and attaching the TFG to PDF file.

The evaluation of the TFG will be done by a tribunal. An oral presentation and defense could be requested by the tribunal. This defense of the TFG in tribunal may not last more than 30 minutes. Up to 15 minutes for the student to present the work and 15 minutes maximum for the debate and presentation of allegations by the court. This defense can not be registered by any electronic device, without the express authorization of the court.

The PE and TFG commission will establish a procedure on the aspects that must be assessed and the way to obtain the qualification. Each court of TFG is made up of three professors from the Department of Physical Education and Sports of the UV, among which can NOT include the tutor of the work.

Students may appeal the final grade of the TFG by the procedure provided in the regulations of the University of Valencia.

Capacitació en Valencià: Students can use the 6 ECTS of the TFG to obtain Capacitació en Valencià must provide that the TFG is written entirely in Valencian. The reference will be the TFG uploaded on the app of the UV and conformity of the responsible academic tutor will be requested.

## ADDENDUM COVID-19

**This addendum will only be activated if the health situation requires so and with the prior agreement of the Governing Council**

The conditions, dates and deadlines set by the Faculty will be maintained, modifying, in exceptional situations and if necessary, only the defence process.

The panels will normally grade up to 7.9 and, in the event that the work is awarded a higher grade, students will be invited to an oral defence via video conference, which may be substituted by any other telematic means, at the discretion of the panel, which must take into account any exceptional situations of both members of the panel and students.

Students must send a summary presentation of their TFG (preferably voice-over and respecting the format and duration required by the regulations) to the members of the examining board up to 24 hours before the date/time of the call. At the telematic defence (video conference), the work and its presentation will be freely debated under the moderation of the chair of the panel.

When the telematic defence is not necessary, the panels may opt for a face-to-face defence of the work.
