SUMMARY

The aim of this subject is to give a basic knowledge about the main questions in History of Social Education. Among these aspects, we can mention the historical and educational basis and the most important ideas, in the case of Spain, about assistance, poverty and education of several social groups located in the edge of the society. The objective is to make students to internalize concepts and processes thanks to which they could think critically about and identify historical antecedents of the ways of work in Social Education nowadays.

TOTAL	60,00	

TEACHING METHODOLOGY

The didactic methodology is based on the development of the contents through a close link between theory and practice, combining both group and collaborative work and individual work. In addition to seminars, tutorials and complementary activities.

In the practical part, for those enrolled in three subjects or more from the 1st semester of 3rd, the development of an integrating project will be considered. From this subject the historical section will be studied and evaluated.

For people who have not enrolled the other subjects of 1st semester, a specific work plan will be designed.

EVALUATION

The evaluation will include:

Practical activities. Participation will be especially valued and will represent 50% of the grade. These activities may be: written, oral, individual and collective.

The contents worked will be evaluated by means of an exam that will suppose 50% of the final grade. It will be necessary to obtain a minimum grade of 5 to add the grade obtained to the practical activities

ADDENDUM COVID-19

This addendum will only be activated if the health situation requires so and with the prior agreement of the Governing Council

1.- Contents

The contents initially collected in the teaching guide are preserved.

2.- Volume of work and temporary planning of teaching

The volume of work will be maintained according to the Teaching Guide.

In relation to planning, efforts will be made to ensure that face-to-face sessions are participatory and active learning.

3.- Teaching methodology

These exceptional circumstances imply, in addition to the methodologies used regularly, the use of other resources:

1. Activities by virtual classroom
2. BBC synchronous videoconferencing
3. BBC asynchronous videoconferencing
4. Slides with voice over
5. Discussion forum
6. Videoconference tutoring

And any methodology, which due to the situation that exists at any time, is suitable for the best attention and learning for students.

4.- Evaluation

A continuous evaluation will be carried out, for which the percentages of the evaluation are changed: 40% theory and 60% practice.
