**SUMMARY**

The Social Education Degree aims to train students in critical analysis and intervention in social and educational problems. For it it has different subjects, from a socio-pedagogical perspective, they form the student to analyze the reality social educative that him makes a detour, to identify problematic situations and to design programs of intervention.

The socio-educational intervention process must include an evaluative perspective that critically review the entire program, from design to their results, through its implementation and development. Thereof, must be analyzed organizations and institutions where this procedure is performed. This is the contribution of the subject "Assessment of Socio-Educational Programs and Institutions," as a line of fundamental research in the Department MIDE.

The overall aim of this course is to provide a consistent and principled training, to serve as a conceptual framework and methodology for analyzing evaluative documents, to participate (and even coordinate) evaluative work, and to sustain the necessary training on evaluation. Therefore, it is a subject where theory and practice are equally important and addresses dynamically, alternating methodological with conceptual elements.
