PEDROSA LOPEZ, JOSE CARLOS	170 - Moral, Political and Legal Philosophy

**SUMMARY****English version is not available**

Tributación de la Empresa es una asignatura optativa de 6 créditos del Grado en Relaciones Laborales y Recursos Humanos. En esta asignatura se aborda, por un lado, y de forma más significativa, el estudio del esquema del Sistema Tributario Empresarial, explicándose los institutos jurídico-tributarios de carácter general (el tributo, concepto, categorías y elementos) y, con especial dedicación, el de los impuestos en particular que afectan más directamente a l'actividad económica de las personas físicas y de las PYMES (IRPF; IS, IVA). Por otra parte, si bien con un carácter más esquemático, también se estudian los procedimientos de aplicación de los tributos, el régimen sancionador tributario y los procedimientos de revisión de los actos administrativos dictados por la Administración tributaria.

Esta asignatura forma parte de la mención en Asesoría Laboral y empresarial, proporcionando al estudiante los elementos imprescindibles para poder abordar con garantías el conocimiento y aplicación de un aspecto esencial para el asesoramiento de las empresas cómo es su régimen jurídico tributario.

## PREVIOUS KNOWLEDGE

### Relationship to other subjects of the same degree

There are no specified enrollment restrictions with other subjects of the curriculum.

### Other requirements

Se recomienda tener superadas asignaturas jurídicas, básicas y obligatorias, del título.

## COMPETENCES (RD 1393/2007) // LEARNING OUTCOMES (RD 822/2021)

### 1309 - Degree in Labour Relations and Human Resources

- Students must have acquired knowledge and understanding in a specific field of study, on the basis of general secondary education and at a level that includes mainly knowledge drawn from advanced textbooks, but also some cutting-edge knowledge in their field of study.
- Students must be able to apply their knowledge to their work or vocation in a professional manner and have acquired the competences required for the preparation and defence of arguments and for problem solving in their field of study.
- Students must have the ability to gather and interpret relevant data (usually in their field of study) to make judgements that take relevant social, scientific or ethical issues into consideration.
- Students must be able to communicate information, ideas, problems and solutions to both expert and lay audiences.
- Students must have developed the learning skills needed to undertake further study with a high degree of autonomy.
- Be able to learn independently and develop initiative and entrepreneurship.
- Be able to organise and plan.
- Be able to manage information and to write and formalise reports and documents.
- Be able to analyse, synthesise and reason critically.
- Be able to solve problems, apply knowledge to practice and develop motivation for quality.
- Be able to communicate orally and in writing.
- Be able to use new information and communication technologies.
- Be able to work in a team.

- Respect and promote the principles of fundamental rights, gender equality, equal opportunities and non-discrimination, democratic values and sustainability.
- Know and apply the principles of the professional code of ethics.
