SUMMARY

English version is not available

La Didáctica General hace referencia al conocimiento y al saber que sustentan las prácticas pedagógicas que hacen posible una relación educativa viva y fértil. Estudiar la didáctica, entonces, no se reduce a identificar únicamente procesos y programas de enseñanza que podemos gestionar para evidenciar resultados de aprendizaje, previamente definidos y homogéneos para todo el alumnado. **La Didáctica trata de elaborar el sentido del enseñar y el aprender** atendiendo al sentido de las situaciones, las relaciones y las acciones pedagógicas; y **trata de orientar el sentido de lo educativo** atendiendo las posibilidades y los límites que impone el marco cultural, administrativo y social actual.

La asignatura de Didáctica General en las titulaciones de Grado de Maestro/a en Educación Infantil y de Grado de Maestra/o en Educación Primaria **tiene carácter introductorio y de formación básica** tratando de acercar, a los y las estudiantes, a las problemáticas propias de las prácticas educativas así como a la indagación y elaboración de un conocimiento pedagógico complejo y rico. Poniendo especial atención en el diseño y análisis de las condiciones que intervienen en la producción del conocimiento teórico-práctico necesario para comprender e intervenir en las realidades escolares.
