SUMMARY

English version is not available

El objetivo general de esta asignatura es que los futuros maestros y las futuras maestras adquieran las competencias necesarias para planificar y desarrollar la tarea docente de etapa, ciclo y aula que tendrán que realizar en su vida profesional.

Entre estas estrategias destacamos las siguientes: adquirir información sobre los aspectos teóricos y prácticos de la enseñanza y aprendizaje de lenguas; usar esta información como base para desarrollar una aproximación personal a la enseñanza; diseñar actividades y ponerlas en práctica; reflexionar sobre la relación entre la teoría y la práctica; trabajar cooperativamente en la planificación y reflexión y reconocer que desarrollar estrategias didácticas es una empresa a largo plazo.

Se trata de la última asignatura del Grado y está destinada a agrupar todos los conocimientos adquiridos en los cursos anteriores para proyectarlos, de una manera coherente y adecuada, a los diferentes ciclos y cursos de la etapa de Infantil.

OUTCOMES

1304 - Degree in Preschool Education

- Express oneself orally and in writing correctly and appropriately in the official languages of the autonomous region.
- Use information and communication technologies effectively as usual working tools.
- Analyse critically the most relevant issues in today's society that affect family and school education: social and educational impact of audiovisual languages and of screens; changes in gender and inter-gender relations; multiculturalism and interculturalism; discrimination and social inclusion and sustainable development. Also, carry out educational actions aimed at preparing active and democratic citizens, committed to equality, especially between men and women.
- Promote cooperative work and individual work and effort.
- Assume that teaching must be perfected and adapted to scientific, pedagogical and social changes throughout life.
- Know the processes of interaction and communication in the classroom.
- Recognise the identity of each educational stage and their cognitive, psychomotor, communicative, social and affective characteristics.
- Design, plan and evaluate teaching and learning classroom activities in multicultural and co-educational contexts.

- Know how to work as a team with other professionals within and outside the school to attend to each student, to plan the learning sequences and to organise work in the classroom and in the play space.
- Know and apply basic educational research methodologies and techniques and be able to design innovation projects identifying evaluation indicators.
- Understand that systematic observation is a basic tool that can be used to reflect on practice and reality, and to contribute to innovation and improvement in education.
- Identify and plan the resolution of educational situations that affect students with different abilities and different learning rates, and acquire resources to favour their integration.
- Know the school curriculum for this stage as regards language learning, reading and writing.
- Know the theories on the acquisition and development of oral and written language.
- Deal with language learning situations in multilingual contexts.
- Recognise and value an appropriate use of verbal and non-verbal language.
- Understand the transition from oral to written language and know the different registers and uses of the language.
- Know the processes of learning and teaching the written language.
- Promote speaking and writing skills.
- Know and master oral and written expression techniques.
- Know the processes of learning and teaching reading and writing.
- Know and properly use resources to stimulate reading and writing.
