LOPEZ IÑESTA, EMILIA	85 - Mathematics Education

SUMMARY

English version is not available

La asignatura **Didàctica de l'aritmètica i la resolució de problemes** es una asignatura de carácter semestral de 6 créditos que se imparte en el tercer curso del Grado de maestro de educación primaria. Forma parte de una materia de 12 créditos que se denomina Didáctica de las matemáticas de la educación primaria.

La finalidad fundamental de la asignatura está ligada a la competencia específica número 2 de la materia, “analitzar didàcticament les matemàtiques del currículum escolar”, referida en este caso a los contenidos curriculares de aritmética y resolución de problemas del currículum de primaria.

Sobre este fundamento se despliega transversalmente una serie de actividades relacionadas con diversas competencias, referidas al desarrollo curricular, al conocimiento de los procesos cognitivos, a las dificultades y errores más habituales en las actuaciones de los alumnos i al uso de las TIC, con lo que se contribuye al resto de competencias que figuran en el documento “verifica”.

PREVIOUS KNOWLEDGE

Relationship to other subjects of the same degree

There are no specified enrollment restrictions with other subjects of the curriculum.

Other requirements

Los correspondientes a la asignatura Matemáticas para Maestros

OUTCOMES

1305 - Degree in Primary School Education

- Express oneself orally and in writing correctly and appropriately in the official languages of the autonomous region.
- Use information and communication technologies effectively as usual working tools.
- Analyse critically the most relevant issues in today's society that affect family and school education: social and educational impact of audiovisual languages and of screens; changes in gender and inter-gender relations; multicultural and intercultural issues; discrimination and social inclusion, and sustainable development; Also, carry out educational actions aimed at preparing active and democratic citizens, committed to equality, especially between men and women.
- Promote cooperative work and individual work and effort.
- Assume that teaching must be perfected and adapted to scientific, pedagogical and social changes throughout life.
- Know the processes of interaction and communication in the classroom.
- Recognise the identity of each educational stage and their cognitive, psychomotor, communicative, social and affective characteristics.
- Design, plan and evaluate teaching and learning classroom activities in multicultural and co-educational contexts.
- Know how to work as a team with other professionals within and outside the school to attend to each student, to plan the learning sequences and to organise work in the classroom and in the play space.
- Know and apply basic educational research methodologies and techniques and be able to design innovation projects identifying evaluation indicators.

- Understand that systematic observation is a basic tool that can be used to reflect on practice and reality, and to contribute to innovation and improvement in education.
- Identify and plan the resolution of educational situations that affect students with different abilities and different learning rates, and acquire resources to favour their integration.
- Know the school math curriculum.
- Analyse didactically the mathematics of the school curriculum.
- Raise and solve mathematical problems.
- Develop and evaluate mathematical contents in the curriculum through appropriate teaching resources.
- Evaluate mathematical contents in the curriculum through appropriate teaching resources.
- Promote the basic mathematical competences proposed in the curriculum among students.
- Know and apply basic methodologies and techniques of educational research to teaching mathematics and be able to design innovation projects identifying evaluation indicators.
- Know the difficulties and errors in the process of teaching and learning mathematics in primary education and the cognitive processes.
- Know teaching interventions that take into account the difficulties and errors in learning mathematics in primary education.
- Analyse ICT as a teaching resource for mathematics.
- Know and implement innovative experiences for teaching mathematics in primary education.
- Design, plan and evaluate the teaching and learning of mathematics in the classroom.

ADDENDUM COVID-19

This addendum will only be activated if the health situation requires so and with the prior agreement of the Governing Council

English version is not available

1. CONTENIDOS

Se mantienen todos los contenidos programados inicialmente, y se adaptan a la modalidad de docencia presencial híbrida o virtual.

2. VOLUMEN DE TRABAJO Y PLANIFICACIÓN TEMPORAL DE LA DOCENCIA

Se mantiene la misma dedicación en el trabajo del alumnado correspondiente a los ECTS. Algunas actividades presenciales pasan a ser en línea. Se mantiene la planificación temporal pero adaptada en el calendario de asistencia presencial del alumnado.

Si la situación sanitaria requiriera reducir o eliminar la docencia presencial, las horas destinadas a las clases teóricas y/o prácticas en aula se sustituirán por clases no presenciales, síncronas (mediante BBC o similar) o asíncronas, poniendo material a disposición del alumnado en el aula virtual.

3. METODOLOGÍA DOCENTE

Recursos de aprendizaje disponibles en el aula virtual para el trabajo de forma síncrona y asíncrona. Por ejemplo, presentaciones con diapositivas, apuntes, actividades, ejercicios prácticos, referencias, etc. Uso de la plataforma *BBCU en función de las necesidades docentes. Las tutorías se harán por videoconferencia o por foro.

4. EVALUACIÓN

Se mantiene el sistema de evaluación respetando la ponderación de la guía docente. Esto compran la evaluación continua de tareas que pueden ser actividades prácticas, problemas, etc. y la evaluación final mediante un examen. El examen final se realizará siempre en la hora y día previstos por el calendario oficial. Si se tuviera que pasar a la modalidad virtual, se utilizarán los medios técnicos disponibles más adecuados.

5. BIBLIOGRAFÍA

La bibliografía recomendada se mantiene.
