SUMMARY**English version is not available**

La asignatura “Educación Instrumental” es una asignatura optativa de la Mención de Educación Musical del grado de Maestro de Educación Primaria. Su carga lectiva es de 4,5 créditos. Esta asignatura teórico-práctica pretende desarrollar las capacidades musicales a través de la práctica instrumental, aplicando las metodologías más novedosas así como procedimientos didácticos de la educación musical.

PREVIOUS KNOWLEDGE

Relationship to other subjects of the same degree

There are no specified enrollment restrictions with other subjects of the curriculum.

Other requirements

Teniendo en cuenta que los alumnos han cursado estudios de música en el Conservatorio, han de demostrar una competencia suficiente en la lectura e interpretación de partituras sencillas.

OUTCOMES

1305 - Degree in Primary School Education

- Express oneself orally and in writing correctly and appropriately in the official languages of the autonomous region.
- Use information and communication technologies effectively as usual working tools.
- Analyse critically the most relevant issues in today's society that affect family and school education: social and educational impact of audiovisual languages and of screens; changes in gender and inter-gender relations; multicultural and intercultural issues; discrimination and social inclusion, and sustainable development; Also, carry out educational actions aimed at preparing active and democratic citizens, committed to equality, especially between men and women.
- Promote cooperative work and individual work and effort.
- Assume that teaching must be perfected and adapted to scientific, pedagogical and social changes throughout life.
- Know the processes of interaction and communication in the classroom.
- Recognise the identity of each educational stage and their cognitive, psychomotor, communicative, social and affective characteristics.
- Design, plan and evaluate teaching and learning classroom activities in multicultural and co-educational contexts.
- Know how to work as a team with other professionals within and outside the school to attend to each student, to plan the learning sequences and to organise work in the classroom and in the play space.
- Know and apply basic educational research methodologies and techniques and be able to design innovation projects identifying evaluation indicators.
- Understand that systematic observation is a basic tool that can be used to reflect on practice and reality, and to contribute to innovation and improvement in education.
- Identify and plan the resolution of educational situations that affect students with different abilities and different learning rates, and acquire resources to favour their integration.
- Master the technique of playing instrumental pieces and improvisation for musical creation.
- Know and know how to use the technique of instrumental direction to organise and conduct instrumental groups.

- Integrate information and communication technologies into guided and independent teaching and learning activities.
- Develop the harmonic and compositional concept through programs to support creation and improvisation.
- Design and develop educational projects, programming units, environments, activities and materials, including digital materials, to ensure the adaptation of the curriculum to the diversity of students and to promote the quality of the contexts in which the educational process takes place.
