Coordination

Name	Department
HERRERAS MALDONADO, ENRIQUE	165 - Philosophy

SUMMARY

This subject wants to contribute to the knowledge of food law and to the raise of the ethical awareness of professionals on their practice. Such ethical awareness is expressed in a socially responsible behavior in accordance with the moral and legal duties of the own profession. Especially, it wants to help to the formation of food professionals in the frame of a comprehensive citizenship.

The main goal of this subject is to know both general aspects and specific issues of food law to reflect on the way how to build a more ethical society by means of the formation of citizens more aware of their civic tasks, and professionals more ethically engaged with the goals and values of their profession. And, from that standpoint, to analyze the concrete questions of food legislation and deontology.

The ethical principles of the professions related with human nutrition, dietetics and science and technology of food will be studied and, considering concrete cases and situations, reflection on the way how we can get a more correct professional practice will be promoted

PREVIOUS KNOWLEDGE

Relationship to other subjects of the same degree

There are no specified enrollment restrictions with other subjects of the curriculum.

Other requirements

No previous requirements are needed.

OUTCOMES

1205 - Degree in Human Nutrition and Dietetics

- Practise the profession with respect for other health professionals and acquire skills to work in teams.

- 4.9. The Spanish Agency for Consumer Affairs, Food Safety and Nutrition (AECOSAN).

**WORKLOAD**

ACTIVITY	Hours	% To be attended
Theory classes	38,00	100
Tutorials	2,00	100
Seminars	2,00	100
Attendance at events and external activities	6,00	0
Preparing lectures	50,00	0
Preparation of practical classes and problem	11,50	0
TOTAL	109,50	

TEACHING METHODOLOGY

1.- Theory (3,52 ECTS, 88 hours): Magisterial lessons with the aim that the student gets the basic knowledge. Competences 1-14.

-Presence: 38 hours.

-Preparation and study: 50 hours.

2.- Practices in the seminar room (0,54 ECTS, 13,5 hours): Seminars, problems. Competences 1-14.

-Presence: 2 hours.

-Preparation and study: 11,5 hours.

3.- Tutorials (0,32 ECTS, 8 hours): Resolution of doubts in a personalized way and in groups. Competences 1-14.

-Presence: 2 hours.

-Preparation and study: 6 hours.

4.- Making of exams (0,12 ECTS, 3 hours).

-Presence: 3 hours.

TOTAL:

-Presence: 45 hours.

-No presence: 67,5 hours.

EVALUATION

1. **Theoretical part:** realization of a written test to guarantee the knowledge and understanding of the theoretical contents established for the subject. This section will contribute to the final grade with a percentage of 70%.
2. **Practical part:** realization of a collective work on food legislation, and exhibition in class. The level of comprehension of the contents as well as the abilities for its exposition and analysis will be valued. In the written test, a question regarding these works will be introduced. This section will contribute to the final grade with a percentage of 15%.
3. The participation and the realization of exercises in the classroom will be taken into account with a total percentage of 5%.
4. **Seminar coordinated** with a percentage of 10%. The students of Double Degree in the Pharmacy DG and NHD, are included in the coordinated seminars of the NHD degree.
5. Attendance to practical classes, regulated tutorials and coordinated seminars is mandatory in the first registration. The repeaters (second registration) will not be required to attend, but they should talk with the teacher to determine the conservation of the previous notes in this section.
6. To be able to add the practical part it will be necessary to obtain a minimum of 3 (out of 7) in the written test.
7. For the second call the notes of the practical part are kept.
