MINGUEZ PEREZ, MIGUEL	260 - Medicine

**SUMMARY**

It consists on the development of an autonomous and individual work under the supervision of a tutor. It has 6 credits according the current legislation for the planning of the official teachings of the Degree in Medicine of the UV. It must be done in the final part of the study planning and it must be focused on the assessment of the competencies associated with the title and the integration of the teachings received, as well as introducing the student in the bases of the medical research.

The FDP (Final Degree Project) has as the main objective the development and the application of the received formative content, capacities, competencies and the acquired skills during the degree. It will be focused on the stimulation of the students' communication capacity in the professional fields and on knowing how to communicate the results of the research performed.

## PREVIOUS KNOWLEDGE

### Relationship to other subjects of the same degree

There are no specified enrollment restrictions with other subjects of the curriculum.

### Other requirements

Fee restriction.

The student must have passed the first three courses and he/she must not have more than 12 compulsory credits pending from 4th and 5th course (the optional subjects are excluded from this calculation).

The student must be enrolled in 60 credits in the 6th course.
