1206 - Degree in Dentistry	27 - Society and communication	Obligatory

SUMMARY

English for the Health Sciences covers essential features of the language employed in these disciplines, placing special emphasis on English for dentists.

English for the Health Sciences is an essential subject for dentistry undergraduates as English is the language most widely used in the academic world; it is the *lingua franca* of research articles, MEDLINE, and international conferences in the academic community. This is the reason why it is an essential tool for the future of the Health professional.

Its syllabus contents provide access to different areas of dentists' professional practice and research into health, and also facilitate the correct interaction of health professionals and academics in a wide range of communicative situations.

PREVIOUS KNOWLEDGE

Relationship to other subjects of the same degree

There are no specified enrollment restrictions with other subjects of the curriculum.

Other requirements

None

OUTCOMES

1206 - Degree in Dentistry

WORKLOAD

ACTIVITY	Hours	% To be attended
Theory classes	25,00	100
Computer classroom practice	20,00	100
Development of group work	20,00	0
Development of individual work	15,00	0
Study and independent work	20,00	0
Readings supplementary material	5,00	0
Preparation of evaluation activities	7,50	0
TOTAL	112,50	

TEACHING METHODOLOGY

Placement test at the beginning of the course with the purpose of evaluating the students' level in relation to the European Framework of Languages.

Classes will include theoretical and practical activities, team work, presentations and projects.

Classes will be developed in English, and will stress linguistic interaction and communication.

Methodological resources include texts, recordings, videos, interviews, online material, the computer lab and the virtual campus.

EVALUATION

The following aspects will be evaluated:

Students' attendance.

Students' participation in dentist-patient simulations, questionnaires, conferences and writing techniques.

Examen, project and presentation.

40% Exam.

30% Project and presentation.

El 30% Practical assignments, writing techniques & translations.

In order to access to an advance on the call of this subject, it is a requirement that the student has coursed with benefits all his/her practices.

ADDENDUM COVID-19

This addendum will only be activated if the health situation requires so and with the prior agreement of the Governing Council

Siguiendo las recomendaciones del Ministerio, la Consellería y el Rectorado de nuestra Universidad, para el período de la "nueva normalidad", la organización de la docencia para el primer cuatrimestre del curso 2020-21, seguirá un modelo híbrido, donde tanto la docencia teórica como práctica se ajustará a los horarios aprobados por la CAT pero siguiendo un modelo de Presencialidad / No presencialidad en la medida en que las circunstancias sanitarias y la normativa lo permitan y teniendo en cuenta el aforo de las aulas y laboratorios docentes. Se procurará la máxima presencialidad posible y la modalidad no presencial se podrá realizar mediante videoconferencia cuando el número de estudiantes supere el coeficiente de ocupación requerido por las medidas sanitarias. De manera rotatoria y equilibrada los estudiantes que no puedan entrar en las aulas por las limitaciones de aforo asistirán a las clases de manera no presencial mediante la transmisión de las mismas de manera síncrona/asíncrona vía "on line".
