## SUMMARY

English version is not available

**La asignatura pertenece al grado de Ciencias Políticas, impartiéndose como obligatoria de tercer curso. La asignatura retoma parte de los conceptos y teorías introducidos en Fundamentos de Ciencia Política I y II, así como los contenidos que se dan en otras asignaturas paralelas, como Comportamiento, Actores y Cultura Política o Sistema Político Español, para profundizar en su desarrollo empírico, haciendo énfasis, sobre todo, en las variaciones prácticas que se dan en diversos países.**

**El valor específico de esta asignatura se basa en su orientación aplicada y comparada, donde los contenidos se centrarán en el análisis de las tendencias políticas contemporáneas. Para ello se recurrirá a diversos casos comparados, dejando de lado el caso de España, ya tratado en otras asignaturas, y prestando especial atención a la evolución de otros sistemas políticos europeos y no europeos.**

## EVALUATION

The composite grade is based in 2 elements, both in the first and in the second exam periods:

- a) Examen: al acabar el curso se realizará una prueba final sobre todos los contenidos de la asignatura, se hayan impartido en el aula o no, y los materiales que se comprendan en las diversas sesiones. Esta prueba tendrá un valor del 60 por ciento de la nota global. Para que al el valor de esta parte se sume el de la evaluación continua (de las sesiones prácticas), el alumno deberá haber obtenido al menos un 4 (sobre 10).

b) Evaluación continua/Prácticas: A lo largo del semestre se irán realizando trabajos prácticos y actividades complementarias de diversa índole que deberán entregar a clase el día de su realización (normalmente, exigirán que el alumno haya trabajado previamente los materiales indicados por el profesor). El contenido de estos trabajos prácticos en clase constituye también materiales y contenidos del curso, por lo que puede ser susceptible de formar parte de la prueba de final de curso, al margen de que el alumno haya realizado y bien todas las entregas. Las prácticas tendrán un valor del 40 por ciento de la nota final (dividiéndose de manera equitativa (20%) entre las dos partes del curso en caso de asignaturas anuales). El profesor informará oportunamente de qué ejercicios tendrán carácter evaluable.

The non-delivered exercises will not be recoverable later or for the second call.

**This addendum will only be activated if the health situation requires so and with the prior agreement of the Governing Council**

## **HYBRID TEACHING**

If the academic authority determines it, this subject will be adapted to the hybrid teaching model established by the Faculty of Law, through which face-to-face theoretical-practical classes will be taught in discontinuous weeks for the student. To this end, the Secretary of the Faculty will divide the group into as many subgroups as necessary, teaching in the classroom, at the time established for the subject, to one of the subgroups each week in accordance with the calendar established by the Faculty, providing for the others, as a priority, follow-up of the class through synchronous VIDEO CONFERENCE.

The contents, volume of work and evaluation are maintained in the terms initially foreseen in the academic guide.

## **NON-PRESENTIAL TEACHING**

If the academic authority establishes the change in non-classroom teaching, this subject will be taught to all students under the same conditions as those indicated for the non-classroom teaching part of the hybrid system.

The contents, volume of work and evaluation are maintained in the terms initially foreseen in the academic guide.
