SUMMARY

Introduction to *GERMAN FOR BUSINESS I* is a compulsory subject, taught in English in the second semester of the first year of the Degree in International Business. This subject is linked to the area of German Philology and to the module Foreign Languages (for specific purposes). It is also related to other foreign language courses such as English for Business and French for Business. In the second year of the Degree, there will be a second level which is a continuation of this course: *GERMAN FOR BUSINESS II*.

Professional interest of this course: Communication in a foreign language is vital for professionals in the world of business. German is, after English, one of the most spoken second languages of Europe. It has the biggest number of native speakers in Europe, with nearly 100 million people, who have German as their mother language. Even in the Valencian Community it is one of the most spoken foreign languages, second only to English.

GERMAN FOR BUSINESS is therefore essential to communicate both orally and by letter with business partners from German-speaking countries. Hence, we recommend that students go abroad and spend one semester in a German speaking country.

The main contents of the course are as follows:

- Introduction to a second language (German) for business
- Basic specialized vocabulary (lexis) for the field of business
- Basic interaction and communication in second language for business
- Reading comprehension of different types of business discourses
- Writing different types of texts in the field of business

TEACHING METHODOLOGY

The modality of classes for students will depend on the social and health conditions and the restrictions established by the competent authorities.

In the case of **online teaching**, classes will be given by videoconference, preferably synchronous, using Blackboard Collaborate, Teams, Zoom or the tool that the lecturer considers appropriate to optimize the student's teaching-learning process during the scheduled program sessions, **which remain the same days and times**.

In the case of **blended teaching**, the students will have to access the classroom in alternate weeks according to the initial of their last name (A-M or L-Z). The classes will be broadcast so that the students will have face-to-face teaching one week, and the next week they will follow the classes in streaming.

EVALUATION

The course assessment has following components:

1 .- A final exam that will evaluate the different skills: reading, writing, speaking and listening. This test accounts for 70% of the final grade.

2 .- Continuous assessment of the student based on his/her participation and involvement in the teaching-learning process (attendance and class participation, exercises and tasks that are given in the classroom or virtual classroom, attending tutorials, ...) and practical activities carried out by the student during the course. This will account for 30% of the final grade.

Attendance and class participation will be valued in the section on continuous assessment. Students who do not regularly come to classes may not be awarded a grade for ongoing evaluation and, therefore, will not be awarded with a higher score. That is, could obtain only 70% of the grade.

The requirements for the evaluation will be the same for exam calls. If students do not achieve a "pass" in the first term, they will have the chance to repeat the part 1 (exam), while they will keep the results that obtained in part 2. The students who have not achieved any marks in part 2 will not be able to achieve them in the second term. Therefore, the highest record they can achieve is the 70% corresponding to part 1 (exam).
