SUMMARY

The course, located in the first course and course of basic training of the degree of tourism, is a gateway to sociology. Therefore, it has an introductory character at the same time as panoramic.

A.- Introductory, that provide the first knowledge and skills about the sociological perspective. The aim is to help to develop a new perspective in consideration of social phenomena. We must split of the vision of common sense, of the prejudices of ordinary life, which share all humans as social beings, for, by means of analysis and critique, to develop the proper scientific perspective.

B.- Panoramic, that present the general map of the territory which include the sociology. In order to help understanding this totality in their internal frame made a path ranging from development of modernity era to the history of the sociological theory, from the culture to the structure, from the economy to the ecology, from the everyday life up to the policy, or from the microsocial dimensions up to the macrosocial. Also, the subject is adapted to a perspective applied to tourism, in order to understand the own different dimensions, as in when tourism is revealed as a phenomenon of modernity globalized.
