SUMMARY

English version is not available

En esta asignatura se estudian algunas de las más relevantes instituciones convencionalmente situadas dentro de la llamada parte especial del Derecho administrativo. Se estudia la responsabilidad civil extracontractual de las Administraciones públicas, los contratos públicos, el régimen jurídico de los empleados públicos, los bienes públicos y las más importantes modalidades de actividad administrativa. Finalmente, se analiza, a modo de sectores de referencia, el régimen jurídico de la intervención administrativa en dos ámbitos especialmente relevantes: la actividad económica y la protección del medio ambiente.

ADDENDUM COVID-19

This addendum will only be activated if the health situation requires so and with the prior agreement of the Governing Council

TEACHING METHOD

1. If health conditions permit it according to instructions of health authorities or when the size of the group allows it respecting the safety distance determined by the health authorities, the teaching will be carried out on-site.
2. In case not, we will have to opt for a semi-attendance model by turns, with theoretical classes given by the teaching staff to the corresponding subgroup, while at the same time ensuring that the content of the class is accessible to the rest of the group (synchronously or asynchronous, or both simultaneously), always at the discretion of the teaching staff (who will determine it in the corresponding Annex to the Teaching Guide).
3. Student support and mentoring will be done in a non-presential way (throughout the corporate mail of the UV) or by appointment with the corresponding teaching staff.
4. If, due to health conditions, it is not possible academic on-site activity, teaching and mentoring/student support will take place in a non-presential way. In this case, the theoretical classes will be at disposal of the student body by one of the above-designed means, at the discretion of the teaching staff in charge.

ASSESSMENT

5. As far as evaluation is concerned, continuous evaluation will involve between 30 and 100% of the final grade. This continuous evaluation can be done through resolution of practices, accomplishment of works, test of pursuit during the course, participation and preparation of the classes, delivery of outlines or summaries, control of enlargement works and readings, among others. The remaining percentage of the assessment will be done by a final exam (that can be oral or written), as stated in the Annex to the teaching guide for each teacher, detailing the percentages and the concrete way in which it intends to carry out the evaluation.
6. If, on the dates which are set out in the official calendar for the final examination in person, access to the facilities of the University of Valencia won't be possible because health conditions, the on-site examination will be replaced by a exam to be carried out in distance mode.
