**WORKLOAD**

ACTIVITY	Hours	% To be attended
Theoretical and practical classes	75,00	100
Attendance at events and external activities	5,00	0
Development of group work	9,00	0
Development of individual work	2,50	0
Study and independent work	40,00	0
Readings supplementary material	5,00	0
Preparation of evaluation activities	15,00	0
Preparing lectures	15,00	0
Preparation of practical classes and problem	15,00	0
Resolution of case studies	5,00	0
Resolution of online questionnaires	1,00	0
<b>TOTAL</b>	<b>187,50</b>	

**TEACHING METHODOLOGY**

Showroom theorists. The / The Professor / to expose and explain those key elements that should guide students in the study and understanding of the subject. The student, meanwhile, should actively engage in the learning process through reading, before the teacher's explanation / a, or class, depending on the organization of teaching time, of those materials, manuals, monographs or texts provided or indicated previously.

Activities implemented: will consist of the comment statements or news releases, case resolution, completion of questionnaires, analysis of procedural issues, etc.. through which the student must develop

the skills mentioned above. These activities may either be complementary to the exposure of knowledge by the / the teacher / a, or focus on specific agenda items of the subject that will not be subject to exposure by the teacher. These activities will be participatory and each teacher / to indicate, where appropriate, which will be evaluated. Through the same will be introduced and inure to the student in handling those materials and techniques of the discipline.

Activities outside the classroom:

Complementary activities such as seminars, tutorials collective visits to courts, etc., Is programmed in the context of the subject and will include specific activities of the subject or interdisciplinary or cross, and always in coordination with the groups of the same subject or other subjects. Where appropriate, the teacher should indicate whether they are being evaluated.

Directed activities: For both the theoretical exposure monitoring and the implementation of the activities implemented, the teacher / to indicate which readings, seeking rulings or case preparation, etc., Will the student. Although not the subject of work in the classroom, the teacher may also set within the volume of student work, other activities that serve to reinforce or review the knowledge acquired by the student.

Attendance at unscheduled tutoring: For questions on any topic or aspect of the subject and its method of work, students may attend at the scheduled time for each teacher, tutoring unscheduled fix every teacher.

## EVALUATION

The final mark will be the result of adding the points obtained in the exam or exams aimed to assess the theoretical and practical knowledge and the points obtained by doing the different activities planned as a matter of continuous assessment.

Specifically, the final mark will consist of:

- Up to a 30 %, the points obtained by doing the activities planned as matter of continuous assessment.
- Up to a 70 %, the points obtained in the exam or exams aimed to assess the theoretical and practical knowledge.
- The points obtained from the continuous assessment will not be added to the points obtained in the exams if the second ones do not reach, at least, a 50 % of the punctuation established for that kind of assessment, either adding the points obtained in the approved partial exam to the points obtained in the final exam or taking in account the points obtained in the final exam.

Activities planned as mater of continuous assessment and its evaluation

- The continuous assessment will assess the students work in some activities related to the subject-matter of the course, that will be planned in the annex to the academic guide beside the criteria to assess them.

- According to the Protocol for Degrees of the Faculty of Law of the University of Valencia, it is recommended to include, at least, three activities to be assessed consisting, among others, of discussing cases, answering question papers, doing summaries of some contents of the course and giving short speeches in the classroom.
- The professor in charge of the groups that participate in interdisciplinary workshops or planned complementary activities will indicate in the annex of the academic guide if that participation will be considered as a part of the continuous assessment.
- In the annex to the academic guide of every group will be determined if the lack or the negative evaluation of the activities subjected to continuous assessment will be recoverable. That will depend on the feature of the activity at issue.

Assessment of theoretical and practical knowledge will be the result of:

- One partial exam, that will take place according to the schedule of exams approved by the Faculty for the first semester. That exam will be qualifying regarding the contents of the course included in that exam if the points obtained reach, at least, the 50 % of the points assigned to the partial exam. That qualifying effect will be valid for both the first and the second call of the final exam.
- One final exam, that, depending on the result of the partial exam, will deal with the contents that were not matter of the partial exam or with all the contents that should be assessed by exams in the course.
- In the annex to the academic guide will be determine the points assigned to the partial and to the final exam in the assessment of the theoretical and practical knowledge.
- In the annex of the academic guide will be determine if some of the mentioned exams will be done orally.

### ADDENDUM COVID-19

**This addendum will only be activated if the health situation requires so and with the prior agreement of the Governing Council**

### HYBRID TEACHING

If the academic authority decides so, this subject will be adapted to the hybrid teaching model established by the Faculty of Law, meaning that regular theoretical-practical classes will be taught in discontinuous weeks for the students. For this purpose, the Secretary's Office of the Faculty will divide the group into as many subgroups as necessary, ordering classroom teaching, in the timetable established for the subject, to one of the subgroups each week in accordance with the calendar established by the Faculty, giving priority to monitoring the class through synchronous VIDEOCONFERENCE for the ones outside the classroom. The contents, workload and assessment are kept in the terms initially foreseen in the academic guide.

## NON-ATTENDANCE TEACHING

If the academic authority establishes the change to NON-ATTENDANCE TEACHING, this subject will be taught for all students under the same conditions as those indicated for the NON-ATTENDANCE TEACHING part of the hybrid system. The contents, workload and assessment will be maintained in the terms initially foreseen in the academic guide.
