RESUMEN

English Language VII is a compulsory fourth-year (first semester) subject that is part of the module *English Language and Linguistics* and the sub-module *English Language* in the English Studies degree programme of the Universitat de València (approved in 2010). This subject is related to the series *English Language I-VIII* in the aforementioned module and also to other subjects in the *English Linguistics* sub-module such as *English Phonology*, *History of the English Language*, *English Morphology and Lexis*, *English Syntax* and *Second Language Acquisition*.

The aim of the course is to develop communicative skills in English (reading comprehension and written expression) up to Level C2 in multiple contexts. Furthermore, a second objective is to help students become acquainted with some of the main factors related to research in English Linguistics. We will provide students with reading materials, some practical examples, and activities to aid them in the different phases of their end-of-degree dissertation, such as finding a topic to study, doing the actual research, writing it up and presenting it.

At the same time, the course aims to promote autonomous learning, self-assessment, and remedial work with the lecturer.
