ADDENDUM COVID-19

This addendum will only be activated if the health situation requires so and with the prior agreement of the Governing Council

HYBRID TEACHING

If the academic authority determines it, this subject will be adapted to the hybrid teaching model established by the Faculty, through which the student will be taught theoretical-practical classes in discontinuous weeks. To this end, the Secretary of the Faculty will divide the group into as many subgroups as necessary, teaching in the classroom, at the time established for the subject, to one of the subgroups each week in accordance with the calendar established by the Faculty, providing for the others, as a priority, follow-up of the class through synchronous VIDEOCONFERENCE.

The contents, volume of work and evaluation are maintained in the terms initially foreseen in the academic guide.

NON-PRESENTIAL TEACHING

If the academic authority establishes the change in non-classroom teaching, this subject will be taught to all students under the same conditions as those indicated for the non-classroom teaching part of the hybrid system. The contents, volume of work and evaluation are maintained in the terms initially foreseen in the academic guide.
