SUMMARY

The Degree's final project (TFG) will allow the student to obtain the Bachelor's degree so in this project the student needs to relate both the theoretical knowledge acquired in the ADE Degree and the practical knowledge derived from the Internship (Prácticas Externas). In short, the students needs to demonstrate that he has acquired the necessary and sufficient skills and abilities to face the challenge of being a professional expert in management (ADE). In both cases, the project must be theoretically based and must contain practical applications with managerial or academic implications.

To deepen the theoretical or practical study of one or several functions of the company, according to the position held.

DESCRIPTION OF CONTENTS

1. Content of the Degree's final project

1. Project

The project must be related to problems of the management and administration of companies, in any of its functional areas and / or organizational levels, or with the socioeconomic environment in which the companies operate, studying real contexts, or with the approach of a relevant theoretical issue. In both cases, the work must be theoretically based and must contain practical applications with practical or academic implications. The project will consist of 5 main parts that will be included in the work index: Introduction, analysis, development, conclusions and bibliography.

2. Personal rating of the Degree.

The student must make an assessment of the Degree in ADE: What has meant for him at a formative level, aspects that can be improved and positive aspects. This evaluation will be done with a constructive spirit and inadequate or pejorative language will not be admissible. The maximum length will be 400 words.

3. Curriculum Vitae

Brief CV specifying the average grade of credits passed, the level of accredited languages, academic stays abroad and professional experience.

WORKLOAD

ACTIVITY	Hours	% To be attended
Graduation project		100
Development of a final project	250,00	0
TOTAL	250,00	

TEACHING METHODOLOGY

Attendance at supervisory meetings with the academic tutor (supervisor). In this meetings, the teacher-tutor will guide the student in the realization of the final project (TFG), the supervisor will provide specific bibliography to facilitate the documentation work of the student and will discuss with the student the results and conclusions obtained.

EVALUATION

The Degree's final project (TFG) can be assessed once the student has passed 230 credits of his Degree in ADE.

Once the TFG has been submitted, the supervisor (tutor) will evaluate it in a maximum period of 15 days. The maximum grade the supervisor can grant is "Excellent". To achieve that grade with Honors the student needs to apply to the TFG Committee along with a favourable report of the supervisor, for a public presentation of the TFG in front of an Evaluation Committee.

In the evaluation of the TFG the following aspects will be considered:

1. Planning and execution. Timeline, content and planning. Up to 20%.

2. Formal aspects. Structure, layout, interesting topic. Up to 20%
3. Acquired skills. Up to 30%
4. Quality signs. Quality, style, methodology. Up to 30%
