**SUMMARY**

External Internships are placement activities carried out by students in companies or institutions and entities.

The aim of External Internships is for students to acquire, through a period of integration in a company, technical skills (know-how), interpersonal skills (knowing how to act) and thinking processes (knowing how to be) which will enable them to face the world of work, guaranteeing a greater degree of success.

The specific training activities to be developed in EXTERNAL INTERNSHIPS depend on the profile of the placement offered. Therefore, the acquisition of competences during the internship will closely reflect the profile of the placement.

The following parameters should be sought when offering external internships:

- Incorporation of the student into the environment of the company, entity, organization and/or tourist institution. The teaching methodology should always be active and participatory, being complemented, where appropriate, by specific theoretical-practical training provided by the University, the company and/or host institution.

- Experience of professional practices with the objective of comparing the theoretical knowledge acquired during the degree with the practical knowledge gained in the company/organization/institution.
- The completion of tasks that test the critical and reflective capacity of the student and put into practice their ability to analyse and synthesize the areas studied.

Each centre of the Universitat de València has an Internship Committee, the body in charge of organization and academic supervision in coordination with the Academic Commissions of the degrees attached to the centre and with the support of the University-Business Foundation of Valencia (ADEIT).
