There are no specified enrollment restrictions with other subjects of the curriculum.

Other requirements

No enrolment restrictions with other subjects in the curriculum have been specified.

OUTCOMES

LEARNING OUTCOMES

- To understand the concept of the State and its constituent organs:
 - Distinguish the phases of the evolution of the State up to the present day, particularly the characteristic elements of the liberal State and its transformation into the Social State.
 - To understand the institutional dynamics of the parliamentary system in its practical application to the Spanish case: functions of the Head of State and the technique of endorsement; the role of the General Courts, with special reference to the electoral formula and the legislative procedure; the relationship of trust between Government and Parliament; the Judiciary; the Constitutional Court and, in particular, procedures for the control of constitutionality.
 - Determine the competence framework of any legal regulation and know the institutional system of the Autonomous Community of Valencia within the general constitutional framework.
 - Knowing the concept of the Constitution as a legal norm and the system of sources - Properly handling the fundamental concepts of the Theory of the Constitution, fundamentally, the concept of the Constitution and its instrumental notions.
 - Understand the normative meaning of the modern concept of the Constitution and its implications for the system of sources. Determine the position of any legal norm in the current complex system of sources. Ability to identify the sources of Law applicable to any legal problem and to be familiar with codes or legislative compilations in order to be able to search for rules using different criteria (chronological, systematic or analytical).
 - Know how to apply the constitutional model to the context of current political information.
- Translated with www.DeepL.com/Translator (free version)
