Readings supplementary material	35,00	0
TOTAL	210,00	

TEACHING METHODOLOGY

Exhibition of theoretical contents: The professor of the asignatura will expose and will explain the fundamental theoretical contents to guide to the student in the study and understanding of the matter. The student, by his part, has to engage actively in the learning by means of the previous reading of the lesson and the complementary materials that have established in the planning of the course.

Activities applied: it Consists in the comment of sentences, dictámenes and proposals of practical cases, deploying the distinguished competitions, complementing in this way the exhibition of theoretical contents. In each case, will signal the professor which go to be object of evaluation.

Complementary activities: it will program some consistent complementary activity in a workshop, seminar or another activity related with the matter, that will schedule, in function of the availability of human and temporary resources, trying that they have character interdisciplinar, already was with groups of the same or of other asignaturas. The activities will be able to develop in different centres to the Universitat of València.

EVALUATION

Composition of the final qualification.- The final qualification composes of a:

- 30 % OF CONTINUOUS EVALUATION.
- 70 % OF EVALUATION OF THEORETICAL And PRACTICAL KNOWLEDGES.

Activities computables in the continuous evaluation.- In the CONTINUOUS EVALUATION will value the follow-up continued and the preparation of the distinct contents of the programs and will have LIKE MINIMUM TWO acts evaluables consistent mainly in the resolution of cases, test-objective proof, individual work or in group, etc.

In any case, each professor reserves the faculty to realise activities of additional continuous evaluation, that will be recorded in the corresponding Annex to the Educational Guide.

The continuous evaluation presupposes assistance and participation continued. Those students that by diverse reasons can not fulfil with the presencialidad, do not have right to a different continuous evaluation.

Punctuation of the continuous evaluation.- In the continuous evaluation will not obtain any punctuation if it does not surpass AT LEAST THE 40 PERCENT of the same. In consequence, those that do not arrive to the 40 percent will have zero points of continuous evaluation. It pretends with this improve the work continued of the student.

The continuous evaluation will compute so much in first as in second announcement.

The activities of continuous evaluation have the character of “no recoverable” in the second announcement.

Modality of the final proof.- The modality of the FINAL PROOF of knowledges (test, short questions or of development, theoretical or theoretical-practical, oral examination, etc.) will determine by each professor and will communicate to the students with the owed antelación.

In case of coincidence of examinations, will be able to vary the type of examination concerning the planned with general character (p.And., test, oral, writing).

Need to approve the Final Proof.- To surpass the asignatura will be **INDISPENSABLE** to **APPROVE THE FINAL PROOF**.

Those students that have participated in some activity of continuous evaluation, but do not realise the final proof of the corresponding announcements, will state as **NO PRESENTED** in the records of the corresponding announcements of the asignatura.

Qualification in case of have not marked the continuous evaluation.- Those students that have not participated regularly in the activities that allow the continuous evaluation will be evaluated by the result of the final proof, to which anyway will be able to present the students enrolled. In such supposition, the maximum final qualification that they can obtain these students will be of 7 points on 10.

Qualification in case of concurrir automatic cause of suspense.- If concurre automatic cause of suspense, according to the criteria of this Educational Guide or of the Annex of each professor, the maximum note that will obtain the student is a 4.
