CAPLLIURE GINER, EVA MARIA	43 - Marketing and Market Research

## SUMMARY

In the subject Marketing operational design in the launch of a new product, the student is expected to know how to agglutinate and coordinate the decisions related to the determination of the most relevant attributes in the development of a new product, with the

Brand management, price determination and decisions related to sales and communication channels. All this with the practical application of the preparation of a plan to launch a new product.

The objective of this subject is to provide specialized, theoretical and practical training, and in any case, systematized and current, to promote the skill of the student in the process of making operational marketing decisions in companies.

## OUTCOMES

### 2114 - M.D. in Marketing and Market Research

- Saber aplicar los conocimientos adquiridos y ser capaces de resolver problemas en entornos nuevos o poco conocidos dentro de contextos más amplios (o multidisciplinares) relacionados con su área de estudio.
- Poseer las habilidades de aprendizaje que les permitan continuar estudiando de un modo que habrá de ser en gran medida autodirigido o autónomo.
- Ser capaces de integrar conocimientos y enfrentarse a la complejidad de formular juicios a partir de una información que, siendo incompleta o limitada, incluya reflexiones sobre las responsabilidades sociales y éticas vinculadas a la aplicación de sus conocimientos y juicios.
- Saber comunicar sus conclusiones y los conocimientos y razones últimas que las sustentan a públicos especializados y no especializados de un modo claro y sin ambigüedades.
- Students should possess and understand foundational knowledge that enables original thinking and research in the field.
- Ser capaces de buscar, ordenar, analizar y sintetizar la información, seleccionando aquella que resulta pertinente para la toma de decisiones.
- Saber trabajar en equipo con eficacia y eficiencia.
- Ser capaces de tomar decisiones tanto individuales como colectivas en su labor profesional y/o investigadora.
- Have a proactive attitude towards possible changes that may occur in their professional and/or investigative work.
- Be able to integrate new technologies in their professional and/or research work.
- Know how to write and prepare presentations to present and defend them later.
- Ser capaces de analizar de forma crítica tanto su trabajo como el de su compañeros.
- Conocer las herramientas del marketing mix y ser capaz de utilizarlas de forma adecuada a cada contexto.

- Ser capaces de organizar y planificar las actividades de un departamento de marketing en el ámbito empresarial.
- Saber presentar en público los objetivos del plan de marketing y responder a las críticas de otros, mediante juicios argumentados y defenderse con rigor y tolerancia.
- Ser capaces de tomar decisiones, desarrollar acciones y resolver problemas en marketing.
- Diseñar mecanismos de control sobre las decisiones de marketing e investigación comercial e implementar posibles medidas correctoras.
- Diseñar un plan de marketing.
- Redactar documentos e informes en marketing e investigación comercial.
- Presentar documentos e informes en marketing e investigación comercial.
- Saber realizar las labores propias de su profesión, tanto en empresas privadas como en organismos públicos.

## LEARNING OUTCOMES

- Select and correctly use different sources of information in both traditional and electronic formats.
- Handle and correctly interpret quantitative and qualitative data to convert them into useful information for marketing decision making.
- Analyse marketing information.
- Prepare documents and reports presented in a written text in a comprehensible organized, documented and illustrated way.
- Articulate an oral, structured, coherent speech, with good diction and use of technical vocabulary.
- Develop the plan to launch a new product.
- Use marketing mix tools appropriately.

**WORKLOAD**

ACTIVITY	Hours	% To be attended
Theoretical and practical classes	70,00	100
Theory classes	0,00	100
Attendance at events and external activities	8,00	0
Readings supplementary material	14,00	0
Preparation of evaluation activities	40,00	0
Preparing lectures	60,00	0
Preparation of practical classes and problem	60,00	0
<b>TOTAL</b>	<b>252,00</b>	

## TEACHING METHODOLOGY

- Theoretical classes participatory lecture.
- Discussion of articles (readings).
- Seminars.
- Expert conferences.
- Workgroup

The proposed methodology can be developed both in person and remotely if the circumstances require it.

## EVALUATION

- Theory exam 45%
- Continuous assessment 5%
- Team work 40%
- Delivery of practices 5%
- Oral presentation 5%

In order to add the qualifications it is necessary to pass the theoretical exam.

If necessary, the weight of academic assignments may be increased, to adjust to possible teaching situations until reaching 100% of the grade.
