SUMMARY**English version is not available**

En esta asignatura introductoria a la Salud Pública se pretende que el alumno aprenda los aspectos relacionados con los conceptos básicos de Salud Pública, distinguiéndolos de la Medicina Preventiva así como de la Medicina Clínica. También tiene como objetivo conocer la normativa de Salud Pública y los organismos que tienen dichas funciones, tanto en la Comunidad Valenciana como en España, en Europa e Internacionales. Otro de los aspectos fundamentales es conocer el funcionamiento y características de los Registros de Salud Pública, así como los principios de la administración y gestión aplicados en Salud Pública.

PREVIOUS KNOWLEDGE

Relationship to other subjects of the same degree

There are no specified enrollment restrictions with other subjects of the curriculum.

Other requirements

The recommended profile is the person in possession of an official Spanish university degree or a certificate issued by an institution of higher education in the European Higher Education Area that entitle the issuing country for access to Master's teachings.
