Name	Department
ALFONSO SANCHEZ, JOSE LUIS	265 - Prev. Medicine, Public Health, Food Sc.,Toxic. and For. Med.
PAZ GARCIA, JOSE VICENTE	110 - Applied Economics

SUMMARY

1.-Health economics and healthcare macroeconomy. It is important that students understand the overall functioning of the economy, primarily applied to the health sector. They must manage macroeconomic indicators and the public sector. They must understand the information reflected by the macroeconomics distinguishing factors related to distribution, production and health equity. Besides considering the pharmaceutical expenditure as one of the most important components of health expenditures they must know the methods of control of pharmaceutical field and pharmacoeconomics.

**WORKLOAD**

ACTIVITY	Hours	% To be attended
Theory classes	28,00	100
Attendance at events and external activities	2,00	0
Development of group work	14,00	0
Study and independent work	10,00	0
Readings supplementary material	5,00	0
Preparation of evaluation activities	10,50	0
Preparing lectures	9,00	0
Preparation of practical classes and problem	4,00	0
TOTAL	82,50	

TEACHING METHODOLOGY

Theoretical lessons.

Reading and discusion of documents.

Resolution of practical cases.

Resolution of problems.

Problem solving.

Work aided in computer classroom.

Work in groups tutorized.

Projects development .

Seminars .

EVALUATION

Theory assessment. 85%

Attendance and participation in classes. 15%
