## SUMMARY

Since the beginning of the digitization era, audiovisual narratives have evolved into new ways of telling. In this module we analyze the transformation that has undergone the concept of audiovisual format in recent years and how it has adapted to a multi-screen context. We will address the particularities of the new narratives, as well as some emerging fields in the domain of audiovisual, such as transmedia and cross-media productions. Likewise, the new definition of public will be analyzed, as well as its repercussion in the new communicative environment.

## PREVIOUS KNOWLEDGE
