 - c) Problems detected and risk factors. Guidance and intervention with families.

**WORKLOAD**

ACTIVITY	Hours	% To be attended
Theoretical and practical classes	21,00	100
Tutorials	9,00	100
Attendance at events and external activities	2,00	0
Development of group work	8,00	0
Development of individual work	5,00	0
Study and independent work	12,00	0
Readings supplementary material	3,00	0
Preparation of evaluation activities	4,00	0
Preparing lectures	3,00	0
Preparation of practical classes and problem	3,00	0
Resolution of case studies	5,00	0
Resolution of online questionnaires	0,00	0
TOTAL	75,00	

TEACHING METHODOLOGY

Methodology includes the following learning activities or training tasks:

- Lectures / Exhibitions / guidance of the teacher. It will be used in classroom, since this model offers an overview of the subject matter and to highlight those key concepts to understand it. Also, it will indicate to the students resources for more preparation. Presentations by experts.
- Tutoring group. Guidelines in small groups, to perform specific work group or individual achievement. Objectives: the development of communication skills, intellectual skills, cognitive skills and professional and personal growth
- Tutorials individual. The tutorials will be made individually and in small groups to solve problems, directing work, etc. It will use the Virtual Classroom forum to facilitate consultations that may be of interest to the working groups.
- Cooperative Learning: Developing teamwork. The student will perform in team work, application of content and field work.
- Learning guided, transfer, active learning and practical knowledge: a case study, both real and simulated, resolution of problems, project learning
- Self learning. The individual study and individual reflection. Development of a systematic search for information. Analysis, processing and presentation of information worked. Reflection, application and transfer the contents.

EVALUATION

The evaluation of the subject will be done through:

- 1) A final test oriented to assess basic concepts. The test or final exam will consist of short questions. It will be obligatory to answer all questions. This section will be about 40% of grade (4 points).
- 2) Assistance and continuous evaluation. This part evaluates the participation and activities in the classroom (individual / group). Assistance will be monitored by signature. This section will be about 60% of grade (6 points).

Requirements to pass the subject:

- Final test: to have obtained a minimum grade of 50% of final test (minimum 2 points)
- Assistance and continuous evaluation: to have attended 80% of sessions. Besides, to have obtained a minimum grade of 50% of this part (minimum 3 points)
