

COURSE DATA

Data Subject

Code	44024
Name	Affective neuroscience
Cycle	Master's degree
ECTS Credits	3.0
Academic year	2022 - 2023

Study (s)

Degree	Center	Acad. year	Period
2185 - Master's Degree in Cognitive Neuroscience and Special Education Needs	Faculty of Psychology and Speech Therapy	1	First term

Subject-matter

Degree	Subject-matter	Character
2185 - Master's Degree in Cognitive Neuroscience and Special Education Needs	17 - Affective neuroscience	Optional

Coordination

Name	Department
GIL LLARIO, M.DOLORES	305 - Developmental and Educational Psychology
MIRANDA CASAS, ANA	305 - Developmental and Educational Psychology

SUMMARY

English version is not available

PREVIOUS KNOWLEDGE

Relationship to other subjects of the same degree

There are no specified enrollment restrictions with other subjects of the curriculum.

Other requirements

COMPETENCES (RD 1393/2007) // LEARNING OUTCOMES (RD 822/2021)

2185 - Master's Degree in Cognitive Neuroscience and Special Education Needs

- Students should apply acquired knowledge to solve problems in unfamiliar contexts within their field of study, including multidisciplinary scenarios.
- Students should possess and understand foundational knowledge that enables original thinking and research in the field.
- Dominar los conocimientos en el ámbito de la neurociencia cognitiva que permitan realizar acciones de intervención en las necesidades específicas de apoyo educativo.
- Aplicar las habilidades y destrezas profesionales que son propias del ámbito de intervención en las necesidades específicas de apoyo educativo.
- Conocer las bases conceptuales y metodológicas de los procesos de intervención en el alumnado que presenta Necesidades específicas de Apoyo Educativo (NEAEs), priorizando aquellos que han sido validados por los resultados de investigación en el campo de la neurociencia cognitiva.
- Comprender las distintas conceptualizaciones de "Necesidades Específicas de Apoyo Educativo" según la perspectiva teórica que se adopte y sus implicaciones en los criterios de identificación y clasificación de las mismas.

LEARNING OUTCOMES (RD 1393/2007) // NO CONTENT (RD 822/2021)

English version is not available

**WORKLOAD**

ACTIVITY	Hours	% To be attended
Theory classes	20,00	100
Classroom practices	10,00	100
Development of individual work	12,00	0
Study and independent work	20,00	0
Preparation of evaluation activities	13,00	0
TOTAL	75,00
