TEACHING METHODOLOGY

Instructions for the selection of External practices

- Adeit will inform about the list of entities with which they have contacted and answer affirmatively in offering places for the master. This provisional list will be passed before Christmas so that students can get an idea of the possible entities with which they will collaborate. Later in January the definitive list of places will be informed.

- On the other hand, students will be informed with another list of possible research entities / institutes, etc. with which they could contact to request an autoprácticum.
- Due to the profile and contents of this master's degree, autoprácticums will not be recognized in companies that do not have any relationship / collaboration with the public sector. For example. Banks, insurers, etc. are not valid, but NGOs do, if they receive public aid.
- When the information on the places offered is final, students will be gathered to make the final selection of places. That day, staff from ADEIT will come to explain the process of operation of the practices and the relationship between Adeit and the entities.
