SUMMARY

English version is not available

Uno de los logros de mayor alcance del master ha sido la incorporación de las entidades de Economía Social a las actividades de formación de los alumnos a través de las prácticas formativas. Posibilitando así que los alumnos apliquen los conocimientos y habilidades adquiridas en el master mediante su participación directa en la realización de las actividades que las entidades lleven a cabo. Las prácticas formativas son las actividades realizadas por los estudiantes del máster en empresas, instituciones y entidades de la Economía Social y que tienen como objetivo complementar la formación universitaria del estudiante sin que existe una relación laboral entre el estudiante y la empresa. Las prácticas formativas externas que contempla el máster son del tipo "prácticas integradas en los planes de estudio con correspondencia en créditos académicos".
