OUTCOMES

2246 - M.U. en Estudios Internacionales y Europeos 20-V.1

- Students should apply acquired knowledge to solve problems in unfamiliar contexts within their field of study, including multidisciplinary scenarios.
- Students should be able to integrate knowledge and address the complexity of making informed judgments based on incomplete or limited information, including reflections on the social and ethical responsibilities associated with the application of their knowledge and judgments.
- Students should communicate conclusions and underlying knowledge clearly and unambiguously to both specialized and non-specialized audiences.
- Students should possess and understand foundational knowledge that enables original thinking and research in the field.
- Students have the ability to discover and select both information and the appropriate sources thereof pertinent to the resolution of international and European problems/issues that present a certain degree of difficulty.
- Students have an in-depth understanding of how to identify, acquire, manage and analyze texts and/or documents both international and European in nature.
- Students are able to work effectively in a team in pursuit of the resolution of complex international and European problems.
- Students demonstrate an advanced capacity to master international judicial/political language; especially that related to Community matters.
- Students participate in debates that address European/international problems, are able to direct and coordinate them, summarize them and extract the important conclusions accepted by the majority.
- Students utilize diverse communication techniques oral, written, presentations, panels, etc. to impart their knowledge, proposals and positions.
- Students are able to project their own knowledge on specific problems and, in so doing, distill the most significant arguments and conclusions for their resolution.
- Students are able to assess the current international system, its actors and actions, evaluate its structure and operation in the light of the principal explanatory theories of international relations and draw pertinent conclusions in order to formulate their own diagnosis of the international scene.

- Students are able to analyze the composition of the public stakeholders in the international system, categorizing each one and recognizing their interrelationships, paying particular attention to the process of European integration in order to understand its evolution, organization and mode of operation in the international arena in the light of the power games that are currently taking place there.
